
32 rotors; fixed packet energy; orientation seed 1701
A Energy in the original pair
Fraction of total energy
Time
Packet energy 1
Packet energy 10
Packet energy 100
Equilibrium mean 2/N
B Energy participation
Dotted: equilibrium means
$1/[N\sum_i (e_i/E)^2]$
Time
C Local energy, packet energy 10
Rotor index
Time
Local energy fraction e_i/E
D Local energy, packet energy 100
Rotor index
Time
Local energy fraction e_i/E
